

Victoria's background in stakeholder engagement, urban & regional planning and social research has honed her skills in communication, research and analysis and project management. Her project experience includes the facilitation of significant infrastructure incorporating feasibility studies, development facilitation, master planning and community engagement.

Skilled in planning and delivering stakeholder engagement and risk communications strategies to support projects, plans and policies, Victoria is focused on enhancing relationships with communities and stakeholders. She is also well placed to provide strategic and development planning advice, and as qualified trainer enjoys preparing learning materials and delivering training programs.
